

# MORNING APPEAL

WEDNESDAY, JUNE 29, 1883

L. P. FISHER, Advertising Agent, 21 Merchants Exchange, is sole agent for the MORNING APPEAL in San Francisco.

The "MORNING APPEAL" is the only paper in Carson publishing telegraphic dispatches and afternoon stock reports.

## STOCKS.

The Market experienced another set back yesterday; the small holders sold in the general scare and margin buyers were slaughtered by the brokers. The bears came down on the line like a pack of wolves on a sheep herder's ranch and devoured everything in sight. There was a general panicky feeling among those who a few days ago were counting how much they expected to make in the North-end during the next sixty days, and some men were too disgusted to talk. Last night's Chronicle has the following:

There is a rumor of an improvement in the Hale & Norcross, but it comes too late for investigation. At the north-end the eventful west coast moves slowly forward. At half-past 11 our most reliable information was to this effect: "The drift is in to-day between 35 and 40 feet. Some more stringents of quartz have been encountered—the quartz of no value, but of better appearance than that found east of the ledge on the 2900. The ledge itself has not yet been reached.

The prospect, it must be confessed, is not as bright as there was reason to anticipate; yet it is by no means as gloomy as the bears would have the public believe. The drift must have at least 60 or 70 feet yet to go before reaching the west wall, and there is room enough left for a body of ore that might send Union and Sierra Nevada booming upward. By tomorrow afternoon (if work is steadily prosecuted) we should have something decisive.

## The State.

When John Mackay buys that \$150,000 principality in the Mediterranean Sea he will have a regular Cabinet the same as any other King in good standing. The State has already been fixed up as follows:

Prime Minister, Charley Goodwin.

Minister of War, Frank Osbiston—Ambassador to Ireland, D. E. McCarthy, (to reside in Dublin on a salary of \$1,000 per month.)

Chief of the Commissary Department. (The editor of this journal has made application for the place.)

Minister of Finance and Head of the Treasury Department. Mr. Mackay has concluded to carry the keys of the royal safe himself even if the entire Cabinet resign at the end of the first quarter.

It is proposed as soon as the new dynasty gets in running order to declare war with the Isle of Patmos.

The flag of the new kingdom will be a Con. Virginia stock certificate (assessment paid) and a diamond drill in the corner.

Maurice Hoeflich is at work on a design for the seal of State.

## The Pioneer Picnic.

The old Nevada Pioneers will hold their annual picnic on Sunday next at Treadway's. The public ought to stand by these old blazers of the path of empire and attend their annual gathering, as it will not be long before the little band will not be able to muster enough to have a picnic. Some day there will be the last picnic with old Farmer Treadway and Bill Gibson eating ham sandwiches under a tree and drinking toasts to those who have gone before. When we stop a few minutes and think how this country was discovered and put on its legs by these same men we can easily figure that a few dollars spent at their picnic will be money well invested.

## A Murderer to be Hanged.

The Superior Court of Placer county, Cal., last Tuesday sentenced Steven Richards to be hanged on July 27th, 1883, for the wilful murder, on the 11th day of March last, of Thomas Nicholls. The prisoner received his sentence without visible emotion. The Court remarked, in passing sentence, that the crime was as wholly cold-blooded and without palliation as any ever committed.

It will be remembered that Richards killed a man at Austin a few years ago and was sentenced to the State Prison for life, but was afterwards pardoned for services rendered during a prison-break.

## Grasshoppers.

Fears are entertained that the grasshoppers will invade Independence valley again this year, says the Austin Democrat. A few days ago, near the Battle Mountain road, the ground was literally covered with young ones for an area of 200 yards square. The pests are not troublesome until they are large enough to fly, and as they are late coming in this season there is a probability that the hay crop will be harvested before the ravagers are matured sufficiently to damage it.

## Heavy Postage.

Probably the most heavily stamped inclosure ever sent through the San Francisco Postoffice was a package forwarded to Liverpool. It was a white-wood box, screwed and sealed, and contained documents and other matter in reference to the Escambia wreck, for use at the investigation in England. The box was directed to "T. E. Paget, Engineer, District Register, Liverpool, England." Upon it were 75 90-cent stamps and one 10-cent stamp, amounting to \$67 50.

## A Watering Place.

Hawthorne will, as soon as the advantages become known, say the Bulletin, be one of the most popular watering places in the United States. The lake water is unexcelled for bathing, its temperature is exactly right, while the mineral he'd in solution is very healthful to a judicious bather. A magnificent beach offers splendid facilities for bathing houses and makes entrance to the water easy and pleasant.

## Roll of Honor.

Miss Martin's class—Gertie Mason, Lillie Schneider, Frankie Rinckle, Gussie Parcel, Philip Mighe's, Sophie Levy, Susie O'Connor, Anna Merry, Terie Bliss, Ella Partridge, Lillie Swift, Alice Tobriner, Will Davis, Kate Hardy, Edith White, Lillie Wasson.

## IN BRIEF.

Judge Edwards will hold Court at Genoa to-morrow.

Senator J. A. Brumsey has gone to San Francisco to reside.

Professor H. H. Howe's public school class was examined yesterday.

There will be reduction works started soon at the front of the Carson & Colorado railroad.

Max Aronson received a fresh supply of fine cigars and tobaccos yesterday.

August Hebblerling, late Assistant Assayer of the Mint, is in from Hawthorne.

The family of Dr. Herrick will return from the East on Friday next.

Carson Lodge No. 4 K. of P., will meet to-morrow night. A full attendance is desired.

The family of Alf. Chartz have returned from Germany and are at Virginia City.

There was an old fashioned stock panic at Virginia City yesterday morning—all sellers.

John B. Meloche, well known here, is in business at Truckee, and said to be doing very well.

Thomas Higgins, of the Mint, went below last night to spend his vacation.

Miss Stella Gates will pass her vacation with Sacramento and San Francisco friends.

Senator John P. Jones passed up to Gold Hill yesterday. He intends remaining on the Comstock some time.

The ladies are requested to send their contributions for the festival to the Opera House this afternoon at 2 o'clock.

Bull playing on Carson street where passers by are liable to be struck in the eye by a soggy ball, is getting to be quite a nuisance.

Frank Woodward, of Benton's stable, is the most inveterate watch trader in the State; he has swapped about twenty times this month Frank is as good at that business as he is at trading horses.

Trout fishing at Lake Tahoe is better this year than ever. The merest novice finds no difficulty in angling a dozen fine fish in an hour.

The project is being discussed of bringing the water from Shaw's Springs into town by means of pipe, but it is doubtful whether it will ever be carried into practical effect.

Cap. Thomas Buckley returned here from the Lake yesterday, and leaves for Bodie this morning. Mrs. Buckley remaining at Tallac for some time.

Miss Nellie Keene and Miss Crowley, the latter daughter of Chief of Police Crowley of San Francisco, are guests of Miss Maggie Cavanaugh.

The funeral of the late Jonas Seely took place at Oakland on Sunday. The following Nevadans were among the pall bearers: ex-Governor Biadell, Judge Lewis and John Skae.

Unless Virginia does something in the matter of erecting a theater, our prospects for many good theatrical performances are very light. Since the destruction of P. per's Opera House many companies have canceled their dates with Manager Preddy.

There is a paragraph floating about the press now stating that Lotta, the actress, never married because she was once deceived by a young man. The fact of the matter is that the young men who used to visit Lotta were warned off by a severe case of mother-in-lawism.

## A Strong Team.

Chancellor Derby has sold his interest in the Nevada at San Francisco to Capt. Matt Canavan, of Virginia. The firm is now composed of Bil Garhart, Matt Canavan and Jake Nichols, for years a teamster at Virginia. The gentlemen are all well known in this State as well as at the Bay, and are sure to build up a good business. They have several of the finest teams on the coast, among them Jewess and Silvermail, both well known steppers, formerly of this State. Nevadans will find old friends by calling at the Nevada stables.

## The Church Festival.

The Episcopalians will hold their midsummer Church festival at the Opera House this evening. There will be the usual round of strawberries and cream, dancing and refreshments of various kinds, cake, lemonade, etc., between quadrilles and the best of music. The ladies who called last evening at the Appeal office personally guaranteed that the strawberries and ice cream would be beyond the usual standard of Church festival cream and strawberries, and that the lemonade would float an egg. People not satisfied with the entertainment can get their money back at the door.

The Episcopal strawberry festival takes place at the Opera House to-night, and it is believed that it will be largely attended. The ladies are exerting themselves to insure its success. Admission 50 cents.

## One Thousand.

This is the name of a new compound made for beautifying the skin, probably called so because one thousand women out of every one thousand and one use it. It can be found nowhere in the State of Nevada except at Foster's drug store, he being the sole agent for the sale of the compound. No woman who has ever tried it uses anything else. It removes freckles, tan and all blotches and discolorations of the skin by putting the pores in a healthy state.
